

# Plan to Marry

[Lucinda Williams](#)

Okay, this is in G  
When leaders can't be trusted  
And hero's let us down  
And innocence lies rusted  
Frozen beneath the ground  
And the destitute isolated  
We've all been forgotten  
And the the fruit trees we planted  
Are withered and rotten  
The abused and magnificent  
Suffer from infection  
And the promises were given  
But never with intention  
War becomes common place  
Secrets overheard  
And violence, becomes big business  
And love is just a word  
Why do we marry, why do we fall in love?  
Keep on believing in love  
Because love, love is a mighty sword  
Love is a weapon, love is a lesson  
And we, we are the conquerors  
We are the soldiers, we are the lovers  
That's why we fall in love  
That's why we believe in love, that's why we marry
