

# No Compromise

## Ektomorf

Here I am  
With thousand bleeding wounds  
From the lifeHere I am  
You never believed in me  
But now this is my timeI don't play your game  
I know my way  
This is my life  
No compromiseHere comes the time  
The hurricane of my fateWith strength and anger  
Break down all the negative shitI don't play your game  
I know my way  
This is my life  
NO COMPROMISE
