Moving Right Along

Something for Kate

Yeah what happened to you?
when you couldn't ignore the line,
that got marked across your life what did you do?Did you get angry? Did you get scared?
No I didn't think so.
You were just getting some air.
And you're moving right along.Yeah they were asking about you.
How were you gonna cope, and was there any hope?
They thought they knew.
Yeah they thought you'd falter, they thought you'd fail.
But I knew better, you were just setting sail.And you're moving right along.
Moving right along.
Oh yeah.Yeah where did you go, what did you do?
When it all just changed so fast,
and the ground just came right out from under you.
Oh did it get you down, the things they say?
Well you know they've got nothing better to do,
and anyway, there's another morning, there's another day,
and with a little time my friend you know that you can get yourself, back on your way.Yeah and you'll be moving right along.
Moving right along.
Moving right, right along.
