

# Calmer Than You Are

## A Static Lullaby

    tickle me pink with laughter  
    backwards we wind up spinning  
another shot of whiskey (another shot of whiskey)  
    to train our feet to move we can't feel loved  
                we can't feel free  
                we can't feel at all  
[x3](we're taking some time) we can't wait for..  
    (we're packing our bags) our bags, too full  
                unloved, we'll lose ourselves  
    (we're taking some time) we can't wait for..  
    (we're packing our bags) our bags, too full  
unloved, we'll lose ourselves (once more we'll lose ourselves)we think and drink our cocktails  
    sit and watch the burning bridges  
    throw me another one (roll me another one)  
    to train our minds to move we can't feel loved  
                we can't feel free  
                we can't feel at all  
[x3](we're taking some time) we can't wait for..  
    (we're packing our bags) our bags, too full  
                unloved, we'll lose ourselves  
    (we're taking some time) we can't wait for..  
    (we're packing our bags) our bags, too full  
unloved, we'll lose ourselveswe're taking some timewhy can't you set the trucks to sunset and we forget  
    ride the sun to make us whole(we're taking some time) we can't wait for..  
    (we're packing our bags) our bags, too full  
                we'll lose ourselves  
    (we're taking some time) we can't wait for..  
    (we're packing our bags) our bags, too full  
                we'll lose ourselves
