County Line

The Tyde

There's a place I like to go
Cherry bombs and cherry wine
Just past the Texaco
Down on the county line
Beer cans and cemeteries
Spanish moss on the welcome sign
Catch a buzz we all get scared
Down on the county line
Out where your troubles can't find you
Out where you leave them all behind
Out where the motion sweetly
Won't you meet me down on the county line?
Kettle corn and 4 H babies
Pink slips and white wall tires
Bet you 20, I'll beat you there
Down on the county line
It's first love and football wars
A French kiss and battle cries
Further then I've been before
Down on the county line
Out where your troubles can't find you
Out where you leave them all behind
Out where the motion sweetly
Won't you meet me down on the county line?
All the church odds and white wash fences
All the wills and teenage brides
Are all searching for redemption
They're all looking for a sign
Down on the county line
(Down on the county line)
Down on the county line
(Down on the county line)
Down on the county line
The best things in life are free
It's been right here all the time
Is everything this home to me
Down on the county line
Out where your troubles can't find you
Out where you leave them all behind

Out where the motion sweetly
Won't you meet me down on the county line?
Out where your troubles can't find you
Out where we have a real good time
Out where the motion sweetly
Won't you meet me, down on the county line?
(Down on the county line)
Down on the county line
(Down on the county line)
Down on the county line
