Built For Speed

American Hi-fi

She?s on fire like a rocket spinning out of control
Try to stop her but you just don?t know how to keep it inside
C-c-can you keep on turning out, I?ll wait for my turn
Same old story 'coz you never learn, gotta make it in time
She don?t know what she does to me
The girl got soul and rhythm in between
I crash and burn like every other time
She?s my little rock 'n' roll queen
I got a girl like that, my baby?s built for speed
Shoot to kill built to spill, got a mind take your pills
But your never gonna get to what thrills all of us inside
C-c-can you put the pedal to the metal this time
You gotta want it like I want it alright, we gotta start tonight
She don?t know what she does to me
The girl got soul and rhythm in between
I crash and burn like every other time
She?s my little rock 'n' roll queen
I got a girl like that, my baby?s built for speed
She?s on fire like a rocket spinning out of control
Try to stop her but you just don?t know how to keep it inside
She don?t know what she does to me
The girl got soul and rhythm in between
I crash and burn like every other time
She?s my little rock 'n' roll queen
I got a girl like that, my baby?s built for speed
I got a girl like that, my baby?s built for speed
Yeah my baby?s built for speed
B-b-baby?s built for speed, yeah my baby?s built for speed
