

# Built For Speed

## American Hi-fi

She's on fire like a rocket spinning out of control  
Try to stop her but you just don't know how to keep it inside  
C-c-can you keep on turning out, I'll wait for my turn  
Same old story 'coz you never learn, gotta make it in time  
She don't know what she does to me  
The girl got soul and rhythm in between  
I crash and burn like every other time  
She's my little rock 'n' roll queen  
I got a girl like that, my baby's built for speed  
Shoot to kill built to spill, got a mind take your pills  
But your never gonna get to what thrills all of us inside  
C-c-can you put the pedal to the metal this time  
You gotta want it like I want it alright, we gotta start tonight  
She don't know what she does to me  
The girl got soul and rhythm in between  
I crash and burn like every other time  
She's my little rock 'n' roll queen  
I got a girl like that, my baby's built for speed  
She's on fire like a rocket spinning out of control  
Try to stop her but you just don't know how to keep it inside  
She don't know what she does to me  
The girl got soul and rhythm in between  
I crash and burn like every other time  
She's my little rock 'n' roll queen  
I got a girl like that, my baby's built for speed  
I got a girl like that, my baby's built for speed  
Yeah my baby's built for speed  
B-b-baby's built for speed, yeah my baby's built for speed
