

# Take It

## Staind

I feel like this won't go away  
No matter how hard I try  
To squeeze my eyes shut  
So I can't see the pain  
In you this pain in me, in me Everything that I can say to you, won't help you  
Everything you need is right in front of you  
Just take it I know that I am really not here  
To represent what I am not clear  
About in my head  
Sometimes I feel fucked up  
Just like you do, like you do Everything that I can say to you, won't help you  
Everything you need is right in front of you  
Just take it Try to make it through the daily pain, that you feel  
Maybe tomorrow won't be so bad  
I know it 'Cause I once felt that way  
Nothing I could say  
Made it go away  
I lived through this, I still feel this  
I just live for my tomorrow Make it go away  
Just make it go away  
She'll make it go away  
She'll make it go away
