

Popcorn Love

BBQ CHICKENS

Dont you know, dont you know, dont you know
Its the real thing, girl?They say, "Its popcorn love"

But its more than that to me

Popcorn love, just wait they will see

Its popcorn love, every morning, noon and night

Popcorn loveDont you know, dont you know

Its the real thing, girl?When we go on our special dates

Were always holding hands

And were never ever late

Youre on my mind all the timeI keep thinking, thinking, I keep thinkingPopcorn love, but its more than that to
me

Popcorn love, just wait, they will see

Popcorn love, every morning, noon and night

Popcorn loveDont you know, dont you know

Its the real thing, girlI go to school and then I come straight home

The first thing that I do is call you on the phone

The things you say, uh, really make my day

I need you, girl, in every kind of wayI keep thinking, Im just thinking

I keep thinking, thinking, thinking

Thinking, thinkingThats right, thats right

Thats right, thats rightAh, P is for her personality

I said the O is for originality

And the other P is for the perfect love she gives to meThe C is just cause she loves me

And the O means shes the only love I got

And the R and the N, our love will never endWell, I know, I know its the real thing

Because she told me so

And I know, I know its the real thing

And Ill never let her goI just got to, I just got to have your lovePopcorn love, but its more than that to me

Popcorn love, just wait, they will see

Its popcorn love, every morning, noon and night

Popcorn lovePopcorn love, its more than that to me

Popcorn love, just wait, they will see

Popcorn love, every morning, noon and night

Popcorn love

Popcorn love but its more than that to me

Popcorn love
