Night Time Eclipse

Stratovarius

If I could stay awake for awhile
I would see another morning
Don't wanna fall asleep now when
Everything seems so far and beyondWalking down a familiar road
But the darkness is misleading me
I know I should feel fear inside
But still the shadows is where I wanna beJust an ordinary day
Stealing all the hope away
Wanting me to be the one
Who has dreams made of clayOhh, fading confused mind
Ohh, creating phrases unknownI know I shouldn't stay awake
If I fall asleep they just might find me
Now all is so clear
I can finally proceedJust an ordinary day
Stealing all the hope away
Wanting me to be the one
Who has dreams made of clayOhh, fading confused mind
Ohh, creating phrases unknownWaiting for the dawn
Soon to arrive
So few options that I have
And I can useLife's circumstances
Can be so cruel
If I take a chance I just might
Make the wrong move
