

# Only For Your Good

## Lumidee

Don't let it change the good in us  
It's all I trust it means so much  
'Cause I'm over heels with the way I feel  
Wouldn't let a thing come between what's real  
Yes, you are my everything  
I swear you're my wakenin' dreams  
Tell you in desires I see somethin' else  
Like when I'm not well, yes, you are my health  
I'll tell you one thing that  
On you's my every bet  
Don't let it change the good in us  
It's all I trust it means so much  
Don't let it change the good in us  
It's all I trust it means so much  
We have things that's new, don't mean me and you  
Has to clear and true that's the way we do  
Can't be apart from you  
It would break my heart in two  
So I'm lovin' you, baby all the way

And there ain't a thing that could never fade  
Telling you, second that  
With you there's no regret  
Don't let it change the good in us  
It's all I trust it means so much  
Don't let it change the good in us  
It's all I trust it means so much  
Let's not get misunderstood  
I tell you only for your good  
With so much and more you lose  
I tell you only for your good  
Let's not get misunderstood  
I tell you only for your good  
With so much and more you lose  
I tell you only for your good  
Don't let it change the good in us  
It's all I trust it means so much  
Don't let it change the good in us  
It's all I trust it means so much
