

# A Better Man

## í•‑ë£‑ì œ ìŠœíƒ€ (Crucial Star)

Until the oceans all run dry  
Until the stars fall from the sky  
Even if words don't seem to rhyme  
I'll be addicted to your smile  
And if the wind blows out the sun  
I'll still believe you are the one  
No matter what we're going through  
I'll plan to spend my night with you  
I promise you, my heart won't fade  
I swear to you, my soul always  
It isn't hard to understand  
You're making me a better man  
Baby, my love will say it all  
I'll always catch you when you fall  
And if the hard times get too much  
I'll still be craving for your touch  
I promise you, my heart won't fade

I swear to you, my soul always  
It isn't hard to understand  
You're making me a better man  
I dedicate my world  
I dedicate my all  
For every moment  
You're leaving me breathless  
I dedicate my touch  
Forever's not enough  
I wanna hold on  
I just wanna hold on to you  
I promise you, my heart won't fade  
I swear to you, my soul always  
Ooh, it isn't hard to understand  
You're making me a better man  
It isn't hard to understand  
You're making me a better man
