Ive loved you since the day your eyes met mine
But I didnt even know it at the time
And now Im here in your arms
I took a chance and walked through the open door
And every day since then Ive loved you more
Cuz you bring me joy and Ill never let goCHORUS
I knew you were the one
When I looked at that picture taken from
that place, soaking in the sun
Was the moment I knew you were the oneV2
You were the one that was always by my side
And you always found a way to make me smile
And it was you that was always standing by
And I know Ive told you many times before
That Ive found a love thats truly touched my soul
And thats for sure
Ive always known
