Together Forever

Stryper

Verse 1 Clap your hands and stomp your feet All you girls and all you guys Let's rock the world with a new beat C'mon don't wait Don't you pass it by Chorus One big family That will live eternally Together forever All you have to do Is receive the one who died for you Verse 2 I get so high I can't stay in my seat Excitement fills the air Let's rock the world with a new beat All you girls and guys everywhere Repeat Chorus
