# Young & Angry

## The Setup

Take a swing at nothing, words will beat me down
Fuck the world, (but) it always comes around.
Ignorance sells in a world full of lies
Fuck the world, and you're the first to buy.So many chances, but you don't even try
I hope you fade away, like everything you say
I still believe, I do not fear the things I can not see.Take a swing at nothing, words will beat me down
Fuck the world, (but) it always comes around.
Ignorance sells in a world full of lies
Fuck the world, and you're the first to buy.So many chances, but you don't even try
Your demons, your demons, your demons keep me up all night x2I still believe, I do not fear the things I can't see.
Young and angry but never without dreams.
I still hope, I still believe in what I can't see.
Young and angry but never without dreams.I hope you fade away, like everything you say
I still believe, I do not fear the things I can't see.Young and angry but never without dreams...
