Shiver

COASTL WOLF

You don't know
what you're getting yourself into
My blood runs cold
I don't want love, I don't need you
I just want your body
Just your body and you won't want nobody else

My hands on your thighs feeling so fine let's go all night
Your nails on my spine making red lines pull me in tight

Don't keep me waiting you know I can't take it
This love ain't the patient kind

Oh I'll make you shiver
Everytime I come around
Good god in a killer
Close your eyes don't make a sound, now
Shiver

Wearing thin
I'll make you shake, question your faith
I'm under your skin
A touch so cold I'll make you shake
You're like a string
Wrapped around my finger

Don't keep me waiting you know I can't take it
This love ain't the patient kind

Oh I'll make you shiver
Everytime I come around
Good god in a killer
Close your eyes don't make a sound, now
Shiver

Oh I need you now
I really need you now
Oh I need you know
I really need you

Oh I'll make you shiver
Everytime I come around
Good god in a killer
Close your eyes don't make a sound, now
Shiver

Everytime I come around
Shiver
