Learn To Live

Darius Rucker

Grandpa Campbell would sit upon his front porch
And I'd be right there just sittin' on his knee
He'd tell stories of love and feast and famine
And I'd hang onto every word that he would breatheHe'd say, "Boy as you walk through this life
Here's a little wisdom that'll help you get by"You gotta live and learn, you gotta crash and burn
You gotta take some stances and take some chances
You gotta laugh and love and take all life has to give
You gotta live and learn so you can learn to liveThough I left home and I went to Carolina
I then set off just to see what I could see
I did some things that I wasn't really proud of
And sometimes life just got the best of meBut I'd always think back to those days
And I know what Grandpa Campbell would sayHe'd say you gotta live and learn, you gotta crash and burn
You gotta make some stances and take some chances
You gotta laugh and love and take all life has to give
You gotta live and learn so you can learn to live, yeah, oh ohAfter years of runnin' 'round and searchin'
I found me a woman who loves me just for me
All those mistakes I thought that I was makin'
Led me right here to ya sittin' on my kneesSon as you walk through this life
Here's a little wisdom that'll help you get byYou gotta live and learn, you gotta crash and burn
You gotta make some stances, you gotta take some chances
You gotta laugh and love and take all life has to give
You gotta live and learn, you gotta live and learn
So you can learn to live, learn to live
