Heaven

Unkle

Where's the Seraphim
Where's the money that we made
Where's the open gate
Where's the fortune that we saved
Heaven's here for you and me
With every falling curl
Heaven's here for you and me
we gained ourselves the world
Hit the Motorway
I can take it all at speed
I got everything
I got everything you need

Heaven's here for me and you
scattered out with pearls
Heaven's here for me and you
we gained ourselves the world
Where's the warrior of light
with gates of solid gold
Paranoia through the fight
with dreams that never fold
Heaven's here for me n you
scattered out with pearls
Heaven's here for me and you
we gained ourselves the world. (x2)
