Walking In The Sky

DJ Encore

So many people looking for happiness
Expecting more of a brighter day
You'd sell your soul running from loneliness
Instead of giving yourself awayWhen you're walking in the sky, Heaven is holding hands with you
So you better learn to fly, before you're falling through
'Cause I'm walking in the sky, Heaven is holding hands with me
Now I think I've learned to fly, I'm happy just to be
I'm happy just to be, I'm happy just to beYou guide me here asking the question why?
I used to close every open door
I'd find the sun even on cloudy skies
Well I've had my time and I don't need moreWhen you're walking in the sky, Heaven is holding hands with you
So you better learn to fly, before you're falling through
'Cause I'm walking in the sky, Heaven is holding hands with me
Now I think I've learned to fly, I'm happy just to beI'm happy just to be
'Cause I'm walking in the sky
Now I think I've learned to fly
