Leave It

Rude Rock Family

Don't think it's what you're afraid of
come in you know what's been made up
Hold you tight, words have a new sound
reading the signs that just seep out
You've got to leave it
"Don't you go evade me now
Come see what you've done"

Each of your reasons has broken
call it off once you have spoken
Filled to the top then split open
repeating over and over
Now you have to leave it
"Don't you go evade me now
Come see what you've done
I've been thinking lately how
all these feelings won"
