Simple Life

Nanci Griffith

I want a simple life, like my mother
One true love for my older years
I dont want your wars to take my children
I want a simple life while Im hereThe sun and moon walk hand in hand together
Trading places shining on the truth
The moon moves the bottoms of the oceans
So, the sun can bring a farmers hands to youI want a simple life, like my mother
One true love for my older years
I dont want your wars to take my children
I want a simple life while Im hereWe all seek comfort in the light of day
And our tears can wash off in the rain
Everything we need is all around us
In simple time and simple waysMother nature talks
Whispering her thoughts
So the paths we choose to cross
Walk one more dayI want a simple life, like my mother
And one true love for my older years
I dont want your wars to take my children
I want a simple life while Im here
I want a simple life while Im here
