Children Of The Night

Bugs Tomorrow

We are the children of the night
We are the children
We are the children of the night
We are the childrenAs daylight fades we celebrate
The end is near, your end is here
The night it brings us our fate
Knee deep in mud, we want your bloodThis isn't love, this is war
This is the night we said we would be fighting for
This isn't love, this is war
This is the night we swore that we would call our ownWe are the children of the night
We are the children
We are the children of the night
We are the childrenThe fire burns into the sky
The sun goes down, your end is here
Lighting eyes in the night
Be one of us, be one of usThis isn't love, this is war
This is the night we said we would be fighting for
This isn't love this is war
This is the night we swore that we would call our ownWe are the children of the night
We are the children
We are the children of the night
We are the childrenWe are the children of the night
We are the children
We are the children of the night
We are the childrenWe are the children of the night
We are the children
We are the children of the night
We are the childrenWe are the children of the night
We are the children
We are the children of the night
We are the childrenThis isn't love, this is war
This is the night we said we would be fighting forWe are the children of the night
We are the children
We are the children of the night
We are the childrenWe are the children of the night
We are the children
We are the children of the night
We are the childrenWe are the children of the night
We are the children

We are the children of the night
We are the childrenWe are the children of the night
We are the children
We are the children of the night
We are the children
