Songbird

Susan Aglukark

For you, there'll be no more crying
For you, the sun will be shining
And I feel that when I'm with you
It's alright, I know it's rightTo you, I'll give the world
To you, I'll never be cold
'Cause I feel that when I'm with you
It's alright, I know it's rightAnd the songbirds are singing
Like they know the score
And I love you, I love you, I love you
Like never beforeAnd I wish you all the love in the world
But most of all, I wish it from myselfAnd the songbirds keep singing
Like they know the score
And I love you, I love you, I love you
Like never beforeLike never before
Like never before
