

Jabberjaw

Wehrmacht

Isn't there enough to talk about?
I don't want what else is running out your mouth
 Chewing my ears from my head
 Will not keep me interested
I wanna put you on someone else
I wanna leave you all by yourself
 If I look like I'm involved
 Well, I ain't listening at all
 You never listen to a single thing I say
How in the hell did I get into this mess anyway?
 Oh yeah, I was shot in the hall with a glance
If looks could kill I would've never had a chance
 And you could bury me where I lie
 I'm so unhappy that I could die
 Other people, they're not looking
 Anywhere in your direction
 Got this creeping party doubt
There's no way I'm ever getting out
 You're having fun at my expense
 Oh yeah, you're raking up
 Sometimes I think that you
 Wanna end up with no one to talk to
 Other people, they're not looking
 Anywhere in your direction
 Got this creeping party doubt
There's no way I'm ever getting out
 They're acting like somebody near
 Just passed away in here
 So if I go, no when I do
 You'll end up with no one to talk to
