

No Definition

Mario

I?m not your man, we?re more than friends
We make love but I don't call you my lover
I do for you, you do for me
It works because we don't smother each other
It's short and sweet, the time we spend
We can't take a second of it for granted, no
I barely understand it, not the way I planned it
Why can't it just be what it is?
What's in a name if we got what we need?
Ain't nobody coming between us but we
Everything I told you about my love I mean
I said everything that I said I mean
Actions speak louder than words
Baby, I'm gonna treat you the way you deserve
We don?t need, we don?t need definition
We don?t need, we don?t need definition
What I feel is real and if you look that up
On top of the word you'll see a picture of us
We don?t need, we don?t need definition
We don?t need, we don?t need definition
We shop, we dine, spend cuddle time
Come over but only on invitation
Knock, knock, in time we're borderline
I like you but don?t quit your occupation
My heart, my ace but just in case
Let's stay open to other situations
Why tell you we gonna be more? Keep you on a leash for?
I don?t wanna string you along, girl
What's in a name if we got what we need?
Ain't nobody coming between us but we
Everything I told you about my love I mean
I said everything that I said I mean
Actions speak louder than words
Baby, I'm gonna treat you the way you deserve
We don?t need, we don?t need definition
We don?t need, we don?t need definition
What I feel is real and if you look that up
On top of the word you'll see a picture of us
We don?t need, we don?t need definition

We don't need, we don't need definition
Girl, even though we used to the titles and givin' names
But maybe this time we should just leave this part alone
'Cause if this is working for us then it's working for us
Don't go messing it up, don't go messing it up
Even though we used to the titles and givin' names
But maybe this time we should just leave this part alone
'Cause if this is working for us then it's working for us
Don't go messing it up, don't go messing it up
Actions speak louder than words
Baby, I'm gonna treat you the way you deserve
We don't need, we don't need definition
We don't need, we don't need definition
What I feel is real and if you look that up
On top of the word you'll see a picture of us
We don't need, we don't need definition
We don't need, we don't need definition
Actions speak louder than words
Baby, I'm gonna treat you the way you deserve
We don't need, we don't need definition
We don't need, we don't need definition
What I feel is real and if you look that up
On top of the word you'll see a picture of us
We don't need, we don't need definition
We don't need, we don't need definition
