When I Get Ready

Head East

When I get ready I'm gonna show you
How some real good loving can be
When I get ready I'm gonna show you
That the best things in life are freeHaving fun and singing songs
Making love the whole night long
When I get ready I just can't go wrongWhen I get ready I'm gonna show you
Just how easy it is to find a smile
When I get ready I'm gonna show you
Just what they mean when they talk about my styleHaving fun and singing songs
Making love the whole night long
When I get ready I just can't go wrongOh it's getting late
You know time won't wait
Got our moves to make
No baby stop it nowWhen I get ready, when I get ready
When I get ready, when I get ready
When I get ready
