Wake Up Everybody

R. Kelly

[Chorus]
Making love till you scream, I wanna wake everybody
When we're making children, wanna wake everybody
And I mean every, every, every[Verse 1]
Take your time, we got all night
Trust in me I'm gonna get it right
Whatever's on, take it off
I wanna get inside with you baby and get lost[Pre-Chorus]
And the more I lay with you
I'm not concerned about what neighbors gon' do
And I don't care if they leave this room
Cause we'll be...[Chorus]
Making love till you scream, I wanna wake everybody
When we're making children, wanna wake everybody
And I mean every, every, every[Verse 2]
The way we touch, the way we kiss
Oh girl I love it when it feels like this
Just forget what you had to do
Cause the night is all about me and you[Pre-Chorus]
And the more I lay with you
I'm not concerned about what neighbors gon' do
And I don't care if they leave this room
Cause we'll be...[Chorus]
Making love till you scream, I wanna wake everybody
When we're making children, wanna wake everybody
And I mean every, every, every[Bridge]
So open the window baby
I don't care if the world hears us baby
Cause as long as you're here lyin next to me
Girl, we can lay on the floor
Don't need any privacy[Chorus]
Making love till you scream, I wanna wake everybody
When we're making children, wanna wake everybody
Making love till you scream, I wanna wake everybody
When we're making children, wanna wake everybody
Making love till you scream, I wanna wake everybody
When we're making children, wanna wake everybody
