## Bowling For Soup

Saturday Night  
Saturday Night  
Punch the clock  
Right on time  
Think I'm gonna lose my mind  
5 o'clock seems like it's a lifetime away  
Hate my boss  
Hate this place  
Wanna shove it in his face  
He doesn't know his wife is texting me every day  
But I see  
The weekend right in front of me  
I wish every night was Saturday night  
I wish every night was Saturday night  
Here's to hoping Monday never comes  
S-S-S-Saturday Night  
Saturday Night  
Half past six  
Hit the town  
Taking shots and buying rounds  
Ozzy's on the jukebox riding Crazy Trains  
Love my friends  
Love this bar  
The bouncer looks like Ringo Starr  
So many girls that my neck hurts, have I gone insane?  
And I see

The weekend right in front of me  
I wish every night was Saturday night  
I wish every night was Saturday night  
Here's to hoping Monday never comes  
S-S-S-Saturday Night  
I wish every night was Saturday night  
I wish every night was Saturday night  
Here's to hoping Monday never comes  
S-S-S-Saturday Night  
This taxi cab  
It really ain't so bad  
As I lean out the window I say

S-S-S-Saturday

I wish every night was Saturday night  
I wish every night was Saturday night  
I wish every night was Saturday night  
I wish every night was Saturday night  
I wish every night was Saturday night  
I wish every night was Saturday night  
Here's to hoping Monday never comes

S-S-S-Saturday Night

I wish every night was Saturday night  
I wish every night was Saturday night  
Here's to hoping Monday never comes

S-S-S-Saturday Night

Saturday Night

S-S-S-Saturday Night

Saturday Night
