

# Nice Time

## Pepper

Look at me baby, am I a little blurry?  
Now your tears have obstructed your view  
This is only crazy, if you think it's crazy  
And of course it's always up to you Now there's so much to say, you won't give away  
Don't think you'll ever decide  
So you leave it up to me to say what we both mean  
I'm sorry but I'm over the ride Because the last time we had a nice time  
Baby, it was so long ago  
Oh, it was the right time but now I think that I'm ready for me  
To let you go So why do you care anymore?  
Why do you care, why do you care anymore? All this time that you think I would be here for your sake  
I hope you got a bottle of wine  
And if it's a drinking problem, I'll be laughing at the bottom  
Because I already finished mine But there's so much to say, it's a give away  
What you really feel inside  
So you leave it up to me to say what we both mean  
I'm sorry but I'm over the ride Because the last time we had a nice time  
Baby, it was so long ago  
Oh, it was the right time but now I think that I'm ready for me  
To let you go Oh, and now the last time we had a nice time  
Baby, it was so long ago  
Now you could leave me right here, I could leave you right there  
You could keep me right here, how could you just not care? And I know, feeling like the sun, when the night is  
done  
So just let me shine, ohh And the last time we had a nice time  
Baby it was so long ago  
Oh, it was the right time but now I think that I'm ready for me  
To let you go Oh, because the last time we had a nice time  
Baby, it was so long ago  
Baby 'cause the last time we had a nice time baby  
The last time baby was so long ago
