

When We Make Love

Tyrese

Love the way you're looking from down here
Come a little bit closer babe, let me feel it
Your body feels so soft against my skin
There's nothing left to do but let me in it
Once I get you in my bed
Girl you wanna go and tell all your friends
'Cause I'm about to give you bragging rights to everything we did last night I like the way you bite your lip
when I, when I hit that spot
Scratches on my back, they're showing what it is right now
And I don't want it to stop
When we're making love
When we make love, oh baby
Every move you make it feels so right
I don't ever want it to end baby
How bout we make it last all night, you can be my forever lady Girl you going crazy, screaming my name right
now
'Cause I'm hitting that spot
Bed is shakin', your knees is grazing, you know what it is right now
And I don't want it to stop When we're making love
Tonight let's wake up the neighbors baby
When we make love, oh baby Girl I wanna give you all of me
So don't obey, just let yourself go
Let your love rain down on me
Feeling so good I have you begging for more When we're making love
Girl when you scream my name it let's me know, it let's me know I'm doing my thing
When we make love
I don't wanna hold back baby, I don't wanna hold back baby
When we make love
Let your body on mine
When we make love Why your legs all up in the air like that
I ain't complaining 'cause I like em up there, like that
