Shoot For The Stars

Louay

We're scared of the dark
With shadows and monsters
And things I don't know
Of burning fires
The question of old questions
Of what the truth would show
The more I count the sheep
The harder it became to sleep
I couldn't start waking
The sound of the fears
That helped me for a ransom
Weren't working anymore
Maybe if I...
Shoot for the stars
I'll hit the moon
Anything, anything
Give me a chance
I wont refuse
Anything, anything
Whether I win, whether I lose
I'd rather jump handful
Than never jump at all
It's not over
'til I say it's over (x2)
Took brushing paint
Mixed up all the colours
And made a piece of art
Spread my emotions out on a canvas
For all to see my heart
Red for love and green for hate
And purple for the queen and me
The bright is blue for the truth

Wanna take life to the fullest
Take it how you like
I'm gonna say things how they are
I'll Shoot for the stars
I'll hit the moon
Anything, anything

Give me your trust
I wont refuse
Anything, anything
Whether I win, whether I lose
I'd rather jump handful
Than never jump at all
And im gonna be, im gonna be
Im gonna do, im gonna do
Not gonna taste it, im gonna chase it
Im gonna face whatever it takes
Im gonna be who I wanna be
And nobody's going to stop me
Im free, free, free, free,free
And if i
Shoot for the stars
I'll hit the moon
Anything, anything
Give me a chance
I wont refuse
Whether I win, whether I lose
I'd rather jump handful
Than never jump at all
It's not over(x4)
'til I say it's over(x5)
