

# No Apologies

## Bon Jovi

No Apology  
(No apology)  
We will not back down  
(No apology)  
We are not afraid  
(No apology)  
Not a drop of doubt  
Let's start this from the happy ending  
Just another white trash train-track kid  
Fighting for survival  
Trying not to do like his daddy did  
Double down the Devil at three, caught morning  
No apology, he just knew when to quit  
Push your luck, say your prayers  
Make believe you don't care  
Take a chance  
Sometimes it's all you need  
(No apology)  
No apology  
(No apology)  
We will not back down  
(No apology)  
We are not afraid  
(No apology)  
Not a drop of doubt  
(No apology)  
Hand in hand, across this land  
Our voices shouting out  
No apologies  
No apologies  
You wanna start a personal revolution  
Think of living somebody else's life  
You can lie about retribution  
But there ain't no fire in your lover's eyes  
Seems like everybody's  
Selling you dreams 'round here  
But no one's buying and it's closing time  
Light the fuse, make your break  
There's no time left to waste

Baby, just like freedom, nothin's free

(No apology)

No apology

(No apology)

We will not back down

(No apology)

We are not afraid

(No apology)

Not a drop of doubt

(No apology)

Hand in hand, across this land

Our voices shouting out

No apologies

You wanna start a personal revolution

What else you gotta do tonight

(No apology)

No apology

(No apology)

We will not back down

(No apology)

We are not afraid

(No apology)

Not a drop of doubt

(No apology)

Hand in hand, across this land

Our voices shouting out

No apologies

(No apology)

No apology

(No apology)

No apology

Hand in hand, across this land

Our voices shouting out

No apologies
