## Inkubus Sukkubus

I feel your drawing near  
And I will show no fear  
No pleasure be denied me  
A hunger grows inside me  
I need your fiery kisses  
Thrill me with your icy touch  
What mortal lover could  
Ever hope to give a woman so much  
Dream lover, dream lover  
Deceiver, Reliever  
Dream lover, dark brother  
I'll open my soul to give you my whole  
Man's greed has known no boundaries  
His cruelty has no end  
I feel desire as you do  
So why need it so offend you?  
Speak not your words of anger  
Carnal acts by the Devil's will  
I don't hear your accusations  
Someone slipped me a happiness pill!
