

Spark Plug

Mocket

There is no sense in being interested in a child, a group or in a society

 There is no sense if one does not see in them before anything else

The life it's capacity to founded upon itselfThere is no sense in being interested in an ill person

 Or unwell a society if one cannot believe their readiness

And the capacity for proper recoveryThere is no sense in being interested in an ill person

 Or unwell a society if one cannot believe their readiness

 And the capacity for proper recoveryAuto recovery

 Auto
