

# Bummer In the Summer

## Love

Well I remember when you used to look so good  
And I did everything that I possibly could for you  
We used to ride around all over town  
But they're puttin' you down for bein' around with me  
But you can go ahead if you want to  
'Cause I ain't got no papers on you In the middle of the summer I had a job bein' a plumber  
Just to pass till the fall it was you I want to ball all day  
We were walkin' along, honey, hand in hand  
I'm a-thinkin' of you, mama, when you're thinkin' of another man  
But you can go ahead if you want to  
'Cause I ain't got no papers on you  
No, I don't I ain't got no papers on myself All alone on the bone when I didn't have a home  
When I saw the way I was and I knew where I was supposed to be  
I was twitchin' so I turned and it's really hard to learn  
That everyone I saw was just another part of me  
But you can go ahead if you want to  
'Cause nobody's got no papers on you  
No, babe, it's just a falsehood
