

B.S.

drylight

Take no offence to this speaking from my own experience
Theres a price to pay when you get caught up no telling
 What you'll get but you can lose the same
With no respect never seen the real through all the dark
 You have a patient love yes you do
 And dont believe everything you hear
 Just let the truth be known
 push force like rain
 First you caught up no things genuine
 push force like rain
 So caught up by the hype and nonsense
 Let the truth not change

I can see straight through clear people heartless & spineless
Tryin' to fit in kissing my joy with pain its all in vein
 I'm just a jem in the city tryin' to survive
 You have a patient love yes you do
 And dont believe everything you hear
 Just let the truth be known
 push force like rain
 First you caught up no things genuine
 push force like rain
 So caught up by the hype and nonsense
 Let the truth not change
