Keepin' On

Vint

Take a trip with me my girl we'll speed on through this world
Care no thoughts to what comes up ahead, I know I'm getting somewhere
Sometimes I wonder why life's so hard then I realize we're doing is something wrong
not everything turns out perfect, you won't know that till it's gone

(Chorus)
So I guess I'll just keep on keepin' on
hoping the stars go my way
I guess I'll just keep on keepin' on
Until I find my way

Things turn to months and months turns to years now, I try but I can't make myself slow down
Time goes by and each day suffocates me, I said each day makes me drown

(Chorus)

(Guitar solo)

(Chorus x2)
