

# Sun & Moon (Beirut Demo) [feat. Richard Bedford]

## Above & Beyond

It's raining, it's pouring  
A black sky is falling, it's cold tonight  
You gave me your answer  
Goodbye, now I'm all on my own tonight And when the big wheel starts to spin  
You can never know the odds  
If you don't play, you'll never win We were in heaven you and I  
When I lay with you and close my eyes  
Our fingers touch the sky I'm sorry baby  
You were the sun and moon to me  
I'll never get over you  
You'll never get over me  
I'm sorry baby  
You were the sun and moon to me  
I'll never get over you  
You'll never get over me When the big wheel starts to spin  
You can never know the odds  
If you don't play, you'll never win We were in heaven you and I  
When I lay with you and close my eyes  
Our fingers touch the sky I'm sorry baby  
You were the sun and moon to me  
I'll never get over you  
You'll never get over me  
I'm sorry baby  
You were the sun and moon to me  
I'll never get over you  
You'll never get over me You'll never get over me
