

# Another Night In The Hills

Gavin Rossdale

Exiles and strangers  
Living in danger  
Hollywood faces  
Can you take it to the races

She's the devil made of coal  
Truth's that nobody knows  
He's a gambler and a cheat  
He got very small feet  
He got very small feet

If there is forgiveness  
I haven't seen it  
Don't let your friends  
Fall to pieces

[Chorus]

Another night in the hills (another night in the hills)  
On a buffet of pills (la la la la)  
True work of art  
Is how we got his far

Exiles and strangers  
See black beat braces  
I have 26 problems  
I want you to have them

She likes cocaine  
Right over my brain  
She's the one to get famous  
She the movers and shakers (shakers)

If there is forgiveness  
I haven't seen it  
Don't let your friends  
Fall to pieces

[Chorus]

True work of art

Is how we got his far [Repeat: x 2]

What!

I used to work for the government

But I became ambivalent

I used to think that I cared

Then I got

[Foreign Language]

[Chorus]

Another night in the hills

Another night in the hills

Another night in the hills

How did we get this far

---
