

Free Jumps

[Andrew W.k.](#)

You walked out on your best, oh oh
But you knew they would never pass the test
They mess your life around, oh oh
But your life's taking their life taking them down
And you never give it up when they stab you in your back
Because their backs are going to break when you go
So you jump jump jump jump jump jump jump jump
They're not going to hurt you anymore
You never give it up give it up give it up
No you never give it up you don't
And you jump jump jump jump jump jump jump jump
You're going to have to make it on your own
They just took your last friend, oh oh
But you knew they would get theirs in the end
You put their lies behind, oh oh
'Cause your life's taking their life, making them fry
And you never give it up when they stab you in your back
Because their backs are going to break when you go
So you jump jump jump jump jump jump jump jump
They're not going to hurt you anymore
You never give it up give it up give it up
No you never give it up, you don't
And you jump jump jump jump jump jump jump jump
You're going to have to make it on your own
Hey, you don't
