

# Call It In the Air

## Jimmy Eat World

Leave home today, escape your region  
It's in your head, keep moving on Choose starlight  
(No way to retrace all your good days add them up)  
It is gone  
Choose star bright  
(None of you knew any more then lose it here)  
No way to retrace  
It is gone Become your dad, live unquestioned  
It's in your head, nostalgia's dead Choose starlight  
No way to retrace  
It is gone  
Choose star bright  
No way to retrace  
It is gone Starlight, star bright  
Starlight, star bright Can't depend on honest answers from dependent hands  
Won't accept an honest answer from an open hand  
Can't depend on honest answers from dependent hands  
Won't accept an honest answer from an open hand (Say the words and i sign off.  
Say the words and i sign off.  
Say the words and i sign off.) Starlight, star bright  
Starlight, star bright
