Heaven

Mason Jennings

Is this a long beginning or a long goodbye?
Something about you makes me wanna cry
something about you hits me so deeep
makes it hard to sleepall my friends think that im to blame
sirens singing when I speak your name
something about you makes me feel so free
and i wanna beso much trouble, sadness in this world
How do we get to heaven?
how do I get to yoU?
i can't go on forever now
only wanna be with you, only wanna be with you somehowit's been 5 days since i've talked to you
5 whole days since you've said we're through
now i doubt everything i've ever known
i feel so aloneyou saybaby it's impossible
sometimes life will make you feel a fool
i know ill never meet anyone like you again
and i miss my friendso much trouble, sadness in this world
How do we get to heaven?
how do I get to yoU?
i can't go on forever now
only wanna be with you, only wanna be with you somehowHow do we get to heaven?
how do I get to yoU?
i can't go on forever now
only wanna be with you, only wanna be with you somehow
