

Help Me Lift You Up

[This Mortal Coil](#)

I dont have to tell you that youre all alone
Hear what you will, you're not gone
Youll have to be with your own kind
Ill have to stay with my own kind
Help me lift you up, help me lift you up Sorry if I cant stop pretending
So sorry if I dont let you go
Like this but not like this is ending
I think you know, I think you know
Help me lift you up, help me lift you up I have a dream, its very clear
Youre all around but never near
Help me lift you up, help me lift you up Dreams are like water, colourless and dangerous
