

# The Winds Of War

## Jedi Mind Tricks

"I'm setting the example, and what I've done in gonna be puzzled over  
and studied, and followed, forever." - the movie "Se7en"

[Ikon]

Prepare for the verbal war  
The Hologram advanced psychical form  
Manifesting universal might into the law  
Travelling lands, I stand on sands of chemical vibration  
The math, kings of light departed in wrath  
So where you gonna stand when the Elohim return  
Seven great sages throughout the ages say you burn  
It's my turn to shine

I redefine the crystalline-biological structures implanted in your mind

So I find the deaf, dumb and blind  
And bless 'em with science and leave the blind ones behind  
Descending into this ball of mass, in the form of rain  
The Verbal Hologram brings pain  
So rearrange disagreeable ways that brought you the darkness  
Take hold, and rip out your soul from your carcass  
And rise away like a shem

The Verbal Hologram is the verbal avalanche  
One last chance to re-plan and over-stand  
Before the Hologram sends your camp to Holy Land  
So ask your man, when he returns to where I sent him  
The plan was to kill God and reinvent him  
Practicing Black Magical tactics like voodoo  
Attacking like the seven deadly warships of Niburu(Chorus x 3)  
[Chorus: sample of Masta Killa from "Triumph"]  
Give insight to the blind

The dumb are mostly intrigued by the drum (intrigued by the drum)

[Ikon]

I bring forth the mighty Udamiu, the powerful Sapagra  
The darkening behind you, the biblical omega man  
The Ashtar command, I came to bring mortals the veractory gland  
So here I stand on the Four Corners of Stonehenge  
Travelling through portals, the thunderbolt of battles, the lord of the immortals  
The Seal of the Seven, the rising of the demon  
The lost books of the Bible and forgotten books of Eden  
The heathens, who burn like perrhosis  
Handed the Holy tablets, like Moses

The blackening of roses, we'll send you to the edges of the land  
The emerald tablets of Thoth the Atlantean  
The hands of the mighty Lion of Judah  
Will throw you through the triangular portals of Bermuda  
Exploring the Hologramic aspects of consciousness  
For aliens truth devour, orthodox first relativistic equations for power  
The shower of acid rain brings pain to the land  
You cannot kill what you cannot see  
The Verbal Hologram  
(Chorus x 5)
