

Salamander

Wolfenmond

Salamander

There ain't no fear

There ain't no hope

There ain't no right

There ain't no wrong

Just make it loud

Just make it loud

Just make it loud

I feel no touch

There ain't no past

There ain't no fate

There ain't no thoughts

There ain't no rules

Spoken words

Broken hearts

Instant dreams

Just let it slide

Wasting time

Just keep it goin' and goin'

Just let it slide

Wasting life

Just keep it rollin' and rollin'

Just make it loud

In your room

Just make it loud

No one cares

And just let it slide

There ain't no pain

There ain't no help

There ain't no doubt

There ain't no name

Just make it fun

Just make it fun

Just make it fun

Carry on

There ain't no hate
There ain't no grace
There ain't no harm
There ain't no truth

Empty bowls
Springer falls
Lost and found

Just let it slide
Wasting time
Just keep it goin' and goin'
Just let it slide
Wasting life
Just keep it rollin' and rollin'
Just make it loud
In your room
Just make it loud
No one cares
And just let it slide

Now I hear it snows
This year is getting colder
How I feel inside
Losing my concentration
Now I need more time
Somehow I'll make it through
I just need more time

Just let it slide
Wasting time
Just keep it goin' and goin'
Just let it slide
Wasting life
Just keep it rollin' and rollin'
Just make it loud
In your room
Just make it loud
No one cares
And just let it slide
