

# Better Now

## CLOVES

Then I hear you leave  
And I'm happy  
Just for a moment I'm free  
Then it dawns on me Then our time has passed  
Now it won't last  
And I'm getting nowhere fast  
That's a fact Peace to the night  
Saw what I was really like  
Start with a kiss  
End with a fight Peace come and go  
Acting like you didn't know  
That I have lost my head  
Oooooooh  
Oooooooh  
And I'll leave  
So I know that you have your doubts Oooooooh  
Oooooooh  
And I'll leave  
But I swear that I'm better now Can you honestly  
Live without me?  
'Cause you miss the fire  
You can't disagree Peace to the night  
Saw what I was really like  
Start with a kiss  
End with a fight  
I love a fight  
Oooooooooooh  
Oooooooooooh  
And I'll leave  
So I know that you have your doubts Oooooooh  
Oooooooh  
And I'll leave  
But I swear that I'm better now You got to just find me  
You know that I'm needy  
You say settle down  
And I said get the fuck out  
Burn your pictures, outburst  
I love the way you acting tough  
And I'll never be good enough

I'm just too muchOooooooooooh  
Oooooooooooh  
And I'll leave  
So I know that you have your doubtsOooooooooh  
Oooooooooh  
And I'll leave  
But I swear that I'm better nowBetter now
