

# Blackout

Lillix

I'm walking down the street  
I'm feeling kind of beat  
From dragging myself to nowhere Would you want to hold my hand?  
No, you wouldn't understand  
Blame it on society  
No one's good enough I saw the sun die; blackout  
All of you people, watch out  
Stay for the week and we can  
Hide 'til it all blows over I saw you yesterday  
But you turned the other way  
"How's the going?" should I say?  
Yeah, I know you know my name Won't you come in for some tea?  
We can talk about the world  
How it's all made up, you see  
Who's lying? I saw the sun die; blackout  
All of you people, watch out  
Stay for the week and we can  
Hide 'til it all blows over Rise  
We will  
Rise  
Would you take me,  
Mold me,  
Break me?  
No more faking,  
Take me somewhere real  
Where I can feel  
Feel I saw the sun die; blackout  
All of you people, watch out  
Stay for the week and we can  
Hide 'til it all blows over  
I saw
