Love Is the Movement

Switchfoot

A day in L.A. and millions of faces
Looking for movement
'Cause everything's stuck
And everything's frozen
And everyone's brokenAnd nobody moves
And everyone's scared
That the motion will never comeThis is the incompletion
Stuck in a lineLove is a movement
Love is a revolution
This is redemption
We don't have to slow back downStars are alive, they dance to the music
Of the deepest emotion
And all of the world is singing in time
As the heavens are caving inMysterious ways
Why God gave his life
To put motion inside my soul?It's bigger than cold religion
It's bigger than lifeLove is a movement
Love is a revolution
This is redemption
We don't have to slow back downWe're starting now
We're starting now
Yeah, we're starting now
We don't have to slow back downYeah, yeahThis is a revolution
This is a revolutionLove is a movement
Love is a revolution
This is redemption
We don't have to slow back downLove is a movement
Love is a revolution
This is redemption
We don't have to slow back downLove is a movement
Love is a revolution
We are redemption
We don't have to slow back downLove is a movementGet up, get up, love is moving you now
Get up, get up, love is moving you now
Get up, get up, love is moving you now, get up, get up
