Winter

Bebel Gilberto

I feel the snow on my eyes
It touches me deep inside
And now I'm here so high
A cloud up in the skyAnd this has got me thinking
It's all because of you
My heart is dark and my mouth so dry
Where were you all this time?My love is yours, you know
Every song I sing belongs to you
And as days like these come and go
I still remember it's trueAnd this has got me thinking
It's all because of you
The night is dark and the moon so high
Where were you all this time?And as days like these pass me by
Through clouds or skies of blue
Then upon this heartbeat I could fly
Just to sing this song for you, for you
