Starz

The 4-Squares

Born of love and cast in light
Don't you know we cannot die
We are starz, we are
We are starz, we are
We are starz, we are
Starz above, the starz of grace
Shining down what's left to face
You hurt so bad
This knowing, this fallacy
I want so much
To follow as I lead
For love I keep
Silent I weep
Dead suns rule dead air
But heaven is everywhere
Starz
Torn from God and flung towards night
Don't you want what I can't fight

We are starz, we are
We are starz, we are
We are starz, we are
Starz that shine, starz that bleed
Silver seeking destiny
So follow please
This hurts so much
This knowing carries me
We want so bad, we forget we are free
Spirit, smile on
Deep black diamond
So rise the lost toys
Island of white noise and purple haze
We are starz
We are starz
We are starz
What hurts so much
Is knowing we are free
